OUR STORY SO FAR

Since taking over Whitestem in 2024, we have had the privilege of providing our beautiful living trees for two wonderful seasons of weddings and events.

The popularity of living trees continues to grow, and this year has been our busiest season yet. We have loved every moment and feel incredibly fortunate to have played a small part in so many couples' special celebrations.

It can be difficult to imagine the impact our trees will have until you see them in place. Their natural beauty brings warmth, height and atmosphere to a setting, transforming the space while complementing the character and architecture of the venue. No matter how many times we set up the trees it always has that feeling of being the first time, and that special moment of knowing we've helped to transform a beautiful space into something unforgettable.

One of the most wonderful things about our living trees is their versatility. From rustic country barns and elegant stately homes to churches, sophisticated marquees and outdoor celebrations, they create a truly memorable setting wherever they are placed.

As we look to the future, we are excited to continue doing what we love - bringing the beauty of living trees to weddings and events, and helping our couples create meaningful memories that will last a lifetime.

A heartfelt thank you to every couple, client, venue, and supplier we have had the pleasure of working with. We look forward to working with you too.
